

SUBJECT NO-IM29008, SUBJECT NAME- Work System Design Lab.

LTP- 0-0-3,CRD- 2

SYLLABUS :-

Prerequisite: None

Laboratory: Exercises on Methods analysis, Motion analysis, Value analysis and ergonomics considerations in work systems design. Ergonomics exercises, Experiments on anthropometry, Exercises on time study, performance rating, and work sampling. Application of predetermined motion time systems, such as MTM to specific jobs designed in laboratory. Standard data applications.
