SUBJECT NO-EC29001, SUBJECT NAME- Basic Electronics Lab.

LTP- 0-0-3,CRD- 2

SYLLABUS :-

1. Familiarization with electronic components and usage of multimeter

2. Familiarization with oscilloscope, signal generator and further usage of multimeters

3. Frequency-response and square-wave testing of R-C, C-R and R-L networks

4. Voltage Rectifiers

5. Studies on Common-Emitter amplifiers

6. Studies on analog circuits using OP-AMP

7. Studies on logic gates
